Tips for packing for camp:

- Pack enough clothing for each day of camp plus an extra outfit.
- Check the weather ahead of time - it can get chilly overnight, so make sure bedding is warm enough and your camper has warm clothes/clothes they can layer during the day.
- Label everything with your campers name.
- Don't pack anything that you wouldn't want to get wet, dirty or lost.
- Shoes should be broken in before coming to camp. Shoes should be able to get wet and your camper should have another pair they can change into.
